Thank you to our guest commencement speaker, Greg Littleton ‘82 who traveled from New York to share his story with our newest alumni. His charge encouraged students to stay true to who they are especially when life presents uncertainties, to stay open to change, to not fight it and hold their center. In his words, "My center is this school. My job has changed, my interests have evolved, but I have a deep appreciation for who I am that came from this school and from the board and donors for the tuition relief available to me, which let this day become my reality."
